

Keil Software Activation Tutorial

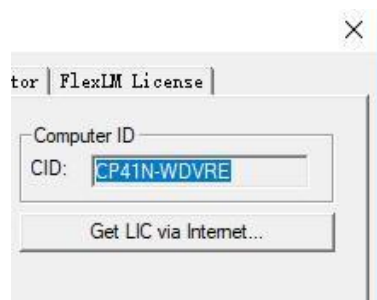

Statement: the tutorial is integrated from the Internet and is intended for user learning only, please do not use it for dissemination, reproduction or other commercial purposes. If you are using it for commercial purposes, please purchase the original version.

Step 1: Right-click “run as administrator” to open Keil software.

Step 2: Click “File->License Management” in turn.

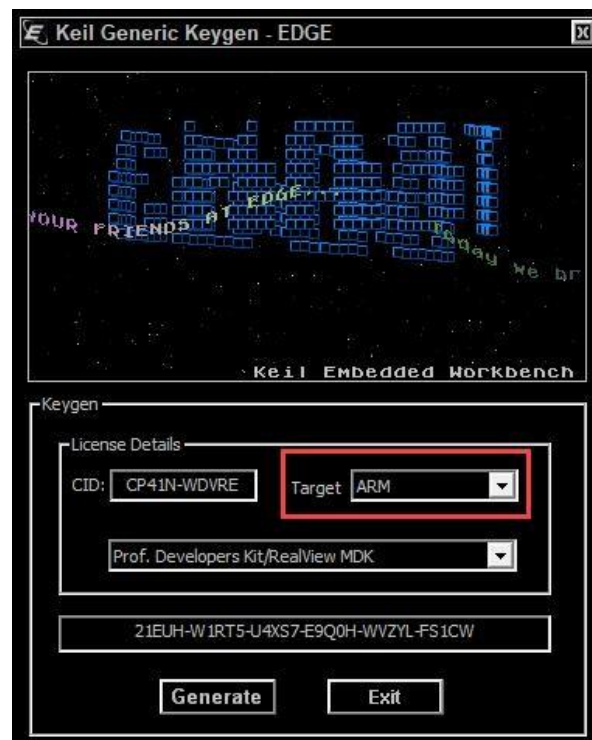

Step 3: Copy CID.

Step 4: Keep the Keil software interface stay on the desktop, and then right-click “run as administrator” to open “MDK registration.exe”.

Step 5: Paste the copied CID into the CID in the opened interface and select "ARM" as Target. Then press "Generate" button to obtain a string of activation codes.

Step 6: Copy the activation codes, and then switch to the Keil software. Paste the activation codes into the corresponding position shown in the following figure and, click "Add LIC".
